

Lumen Learning Course Catalog

Lumen Learning provides hosting, support, and on-going enhancements to open educational resources that replace traditional commercial textbooks in high enrollment courses. Lumen offers two types of digital courses:

Candela Courses: \$10/student enrollment/academic term

Candela courses provide curated open content aligned with learning outcomes. Typical content includes text, video, interactives, sample assignments and assessments. The courses integrate seamlessly into any major LMS and provide full edit privileges for faculty members.

Waymaker Personalized Courses: \$25/student enrollment/academic term

Waymaker courses include all of the benefits of the Candela courses plus a highly personalized student learning experience. Frequent formative assessment and an adaptive study plan guide students towards mastery and improve their learning process. A personalized teaching toolset with automated messaging makes it easy for faculty members to provide timely encouragement, nudges and help for students when and where needed.
