

# Lumen Learning Course List

Complete OER Course Catalog, updated March 2018

Lumen Learning creates affordable, simple-to-adopt digital course materials (“courseware”) using [open educational resources \(OER\)](#). They are designed to improve learning and replace expensive textbooks in high-enrollment college courses.

Lumen course materials curate the best available OER aligned with learning outcomes. Typical content includes text, video, interactives, assignments and assessments, all integrating seamlessly into your learning management system (LMS).

We provide three courseware packages: Waymaker, OHM, and Candela. Visit our public catalog ([lumenlearning.com/courses](https://lumenlearning.com/courses)) to see OER content for any course.

## Waymaker Personalized Learning Courses

Lumen’s Waymaker courses help students exercise their metacognitive muscles with personalized study plans and interactive activities to practice and apply learning. Research shows Waymaker’s data-driven learning design and messaging tools can increase student engagement, persistence, and completion rates.
