

# Lumen Learning Course List

Lumen Learning creates affordable, simple-to-adopt digital course materials designed to improve learning using [open educational resources \(OER\)](#). Lumen materials replace expensive textbooks in college courses.

Lumen course materials curate the best available OER aligned with learning outcomes. Typical content includes text, video, interactives, assignments and assessments, all integrating seamlessly into your learning management system (LMS). Lumen courses are also accessible and mobile-friendly.

We provide three courseware packages: [Waymaker](#), [OHM](#), and [Candela](#). Visit our public catalog ([lumenlearning.com/courses](https://lumenlearning.com/courses)) to see OER content for any course.

## Waymaker Personalized Learning Courses

Lumen’s [Waymaker](#) courses help students become better learners with personalized study plans and interactive activities to practice and apply learning. Continuous, data-driven improvements make Waymaker courses better at supporting learning, student engagement, and completion.

\*Available late 2019

\*\*Available early 2020

## Lumen Online Homework Manager (OHM) Courses

[Lumen OHM](#) is a flexible online homework engine for math and other quantitative subjects, with instructional text and video, algorithmically-generated assessments, machine grading, and immediate feedback for students. OHM is comparable to but more affordable than common publisher packages like MyLabs Math or WebAssign.

OHM OER COURSES			
Discipline	Course	Discipline	Course
<i>Developmental Math</i>	Arithmetic	<i>Math</i>	College Algebra*
	Prealgebra*		College Algebra - Co-requisite Design*
	Beginning Algebra*		Trigonometry
	Intermediate Algebra*		Precalculus
	Non-STEM Algebra / Math Literacy		Calculus
<i>Statistics</i>	Introduction to Statistics*		Math for Liberal Arts / Quantitative Reasoning*
<i>Natural Science</i>	Chemistry for Majors*		Linear Algebra
			Differential Equations

\*Editable interactive textbook available

## Lumen Courses and Learning Design

Lumen course materials represent significant attention to learning design, complete OER content and assessments aligned with learning outcomes. Lumen actively enhances course materials to improve learning, using input from subject matter experts, faculty, and/or learning data analysis. Term over term, we test these improvements to ensure OER content is doing its job to support learning. We also take responsibility for keeping content up-to-date and error-free.

## Affordable and Simple to Adopt

Lumen's low-cost support fee covers services that make it easier to use, teach, and learn with OER, such as LMS integration, an editing platform, online homework, personalized learning tools, technical and faculty support.

Standard pricing is \$10-\$25/enrolled student depending on courseware format, and may be paid by students or by the institution directly. Free versions of Lumen OER courses are available through our [public catalog](#). Read more about pricing and payment at [lumenlearning.com/how/payment-options/](https://lumenlearning.com/how/payment-options/)
